

The SCORE Tournaments join USSSA

As the summer soccer season approaches, USSSA is excited to welcome SCORE Tournaments, host of SCORE at the Shore (Tampa, FL) and SCORE Showcase (Greensboro, NC). This partnership will provide a competitive atmosphere for players and members at USSSA, and will showcase their talents to some of the top college recruiters in the country.

SCORE Tournaments, established in 1999, have been showcasing top-notch soccer players and talent to some of the most prestigious college recruiters in the business. Tournament Directors, Joe Colon and Bruce Binler, are very proud of both the established and new relationships created with clubs, teams and colleges over the years.

Each event draws hundreds of teams and college coaches. This relationship helps lay the groundwork for the success of every event SCORE holds. Additionally, SCORE provides an open, unrestricted event for teams from all over the United States as well as foreign teams from other countries.

Not only do players have the chance to showcase themselves to top recruiters, they are given the chance to play during the winter and summer seasons. The winter event, SCORE at the Shore, has been held in the Greater Tampa Bay, FL area for the past 6 years and the summer event, SCORE Showcase, is going into its 6th season in gorgeous Greensboro, NC. SCORE anticipates adding another event in the near future as well.

USSSA's National Director, Craig Scriven is very excited to be working with such a competitive showcase, "Score Tournaments have a very strong history and it continues to attract good quality teams with optimum recruiting opportunities for players. This is what soccer is all about."

Score at the Shore focuses on keeping their tournament "all about soccer", and will do whatever it takes to ensure that players are able to participate in the game they love at a high-level. With a no-stress approach, providing an environment where soccer is all that matters, they encourage 100% hard working attitudes at all times. The ultimate goal has never been about being the biggest tournament; it's just been about presenting the best... to the best.
